il nostro progetto industriale

our industrial project

36.000m² dedicati alla qualità e al design

Over 387.500 Sq ft dedicated to quality and design

■ Palazzani.eu è un progetto industriale completo che include tutte le attività: dalla produzione - effettuata con modernissime macchine a controllo numerico, alla finitura, dall'asselaggio - eseguito con isole di montaggio automatiche, al controllo qualità di ogni singolo pezzo, alla spedizione, senza dimenticare, prima di ogni altra cosa, l'accurata selezione delle materie prime. Dal 2017 ad oggi abbiamo completamente rinnovato i macchinari per la produzione, per la finitura e per la realizzazione di tutte le prove di qualità necessarie a garantire i nostri prodotti. Spinta da un profondo rispetto per l'ambiente e dalla sincera attenzione per la comunità in cui opera, così come per le generazioni future, l'Azienda – che dispone di area produttiva di oltre 36 mila mq. a Casalmorano (CR) con uno stabilimento di 17 mila mq. costruito seguendo i dettami dell'eco-architettura - si è dotata delle più moderne tecnologie per la produzione e per la finitura dei suoi prodotti e di avveniristici impianti di depurazione che, oltre a non utilizzare componenti dannosi per la salute dell'essere umano, recuperano totalmente gli scarti dei cicli di produzione reimmettendoli, una volta depurati e controllati, nel ciclo di lavorazione.
Un percorso che ha consentito all'Azienda di diventare a tutti gli effetti un'industria 4.0 con attestazioni di qualità e conformità di prodotto e di processo rilasciate dai più severi Enti di Certificazione Internazionali, senza mai dimenticare di mettere in primo piano la sicurezza ed il benessere dei nostri dipendenti e collaboratori, riconoscendoli come parte fondamentale del nostro successo di impresa. Tutto questo per poter offrire un prodotto di alta qualità e di design ad un prezzo di soddisfazione per qualsiasi attore della filiera.

■ Palazzani.eu is a complete industrial project that includes all activities: from production - made with modern numerical control machines, to finishing, from assembly - carried out with automatic assembly islands, to quality control of every single piece, shipping and, without forgetting, first of all, the careful selection of selected raw materials. From 2017 to today we have completely renewed the machinery for the production, for the finishing and for the realization of all the necessary quality tests to grant our products. Pushed by a deep respect for the environment and by sincere attention for the community where it operates, so as for the future generations, the company – that has a productive area of more than 36.000mq in Casalmorano (CR) with an establishment of 17.000 mq, build following dictates of the eco architecture – has equipped itself with the most modern technologies for production and finishing of its products and with futuristic depuration plants that, besides not using damaging components for the health of human being, totally recover wastes of production cycles and reenter them, once purified and checked, into the production cycle. A path that allowed the Company to become an Industry 4.0 with certificates of quality and product conformity and process knowledge issued by the most stringent international certification bodies, without ever forgetting to put in first place the safety and well-being of our employees and collaborators, recognizing them as a fundamental part of our business success. All this to be able to offer a high quality product and design at a price of satisfaction for any actor in the supply chain.

■ Palazzani.eu est un projet industriel complet qui comprend toutes les activités: de la production - réalisée avec des machines à commande numérique de pointe, à la finition, à l'assemblage - réalisée avec des îlots d'assemblage automatiques, au contrôle qualité de chaque pièce, à l'expédition et, sans oublier, avant tout, la sélection attentive des matières premières sélectionnées. De 2017 à aujourd'hui, nous avons entièrement rénové les machines pour la production, pour la finition et pour la réalisation de tous les tests de qualité et conformité nécessaires pour garantir nos produits. Poussée par un profond respect pour l'environnement et une attention sincère pour la communauté dans laquelle elle opère, ainsi que pour les générations futures, l'entreprise - qui dispose d'une zone de production de plus de 36000 mètres carrés. à Casalmorano (CR) avec un établissement de 17 mille mètres carrés. construit selon les préceptes de l'éco-architecture - il s'est doté des technologies les plus modernes pour la production et pour la finition de ses produits et de stations d'épuration futuristes qui, en plus de ne pas utiliser de composants nocifs pour la santé humaine, elles récupèrent totalement les déchets des cycles de productionen les réinjectant, une fois épurés et contrôlés, dans le cycle d'usinage. Un parcours que a permis à l'Entreprise de devenir une Industrie 4.0 avec des certificats de qualité et connaissance du produit et du processus délivrés par les organismes de certification internationaux les plus stricts, sans jamais oublier de mettre la sécurité et le bien-être de nos employés et collaborateurs au premier plan, en les reconnaissant comme une partie fondamentale de notre succès d'entreprise. Tout cela pour pouvoir offrir un produit et un design de haute qualité à un prix satisfaisant pour tout acteur de la chaîne d'approvisionnement.

■ Palazzani.eu ist ein komplettes Industrieprojekt, das alle Aktivitäten umfasst: von der Produktion - mit hochmodernen CNC-Maschinen hergestellt, bis zur Endbearbeitung, von der Montage - mit automatischen Montageinseln, Die Qualitätskontrolle jedes einzelnen Stücks, der Versand und vor allem die sorgfältige Auswahl der ausgewählten Rohstoffe. Seit 2017 haben wir die Maschinen für die Produktion, die Endbearbeitung und die Durchführung aller Qualitätstests, die erforderlich sind, um unsere Produkte zu garantieren, komplett erneuert. Angetrieben von tiefem Respekt für die Umwelt und aufrichtiger Aufmerksamkeit für die Gemeinschaft, in der das Unternehmen tätig ist, sowie für zukünftige Generationen - das Unternehmen verfügt über eine Produktionsfläche von mehr als 36.000 qm. in Casalmorano (CR) mit einem Werk von 17 Tausend Quadratmetern. nach dem Diktat der Öko-Architektur gebaut - hat sich mit den modernsten Technologien für die Herstellung und Veredelung seiner Produkte und mit zukunftsweisenden Reinigungsanlagen ausgestattet, die nicht nur Komponenten verwenden, die für die Gesundheit des Menschen schädlich sind, Sie verwerten die Produktionsabfälle vollständig, indem sie sie nach der Reinigung und Kontrolle wieder in den Verarbeitungszyklus einsetzen. Einer Weg der hat es dem Unternehmen ermöglicht, eine Industrie 4.0 mit Qualitäts- und Produkt Einhaltung- und Prozesskenntniszertifikaten zu werden, die von den strengsten internationalen Zertifizierungsstellen ausgestellt wurden, ohne jemals zu vergessen, die Sicherheit und das Wohlbefinden unserer Mitarbeiter im Vordergrund zustellen, als einen wesentlichen Teil unseres Unternehmenserfolgs anzuerkennen. All dies, um ein qualitativ hochwertiges Produkt und Design zu einem Preis anzubieten, der jeden Akteur in der Lieferkette zufriedenstellt.

■ Palazzani.eu es un proyecto industrial completo que abarca todas las actividades: desde la producción - realizada con máquinas de control numérico de vanguardia, hasta el acabado, desde el montaje - realizada con islas de montaje automático, al control de calidad de cada pieza, al envío y, sin olvidar, en primer lugar, la cuidadosa selección de las materias primas seleccionadas. Desde 2017 hasta hoy hemos renovado completamente las máquinas para la producción, el acabado y la realización de todas las pruebas de calidad necesarias para garantizar nuestros productos. Impulsado por un profundo respeto por el medio ambiente y la atención sincera a la comunidad en la que opera, así como a las generaciones futuras, la empresa - que cuenta con un área de producción de más de 36 mil metros cuadrados. en Casalmorano (CR) con un establecimiento de 17 mil metros cuadrados. construido siguiendo los dictados de la eco-arquitectura - se ha dotado de las más modernas tecnologías para la producción y el acabado de sus productos y de futuristas plantas de depuración que, además de no utilizar componentes perjudiciales para la salud del ser humano, Recuperan totalmente los descartes de los ciclos de producción devolviéndolos, una vez depurados y controlados, al ciclo de elaboración.
Un recorrido que ha permitido a la Empresa convertirse en una Industria 4.0 con certificados de calidad y conformidad de producto y proceso emitidos por los más severos organismos de certificación internacionales, sin olvidar nunca poner en primer plano la seguridad y el bienestar de nuestros empleados y colaboradores, reconociéndolos como una parte fundamental de nuestro éxito empresarial. Todo esto para poder ofrecer un producto y un diseño de alta calidad a un precio de satisfacción para cualquier actor de la cadena de suministro.

la nostra storia
Our history

Dott. Marco Palazzani

Comm. Natale Bonomi

Cav. Luigi Bonomi, founder

Dott. Italo Palazzani

■ La storia che avvolge il marchio Palazzani.eu affonda le sue profonde radici nel lontano 1905. Una concreta testimonianza di valori, come impegno, passione e dedizione, che si sono tramandati di generazione in generazione, costantemente accompagnati da un'innata propensione a investire in ricerca e tecnologia. Oggi, la quarta generazione continua a portare avanti con orgoglio questa lunga tradizione industriale totalmente Made in Italy che, grazie alle più moderne tecniche di produzione, è in grado di trasformare la materia grezza in rubinetterie di alta qualità e di design, perfette per qualsiasi ambiente bagno. Un'incredibile sinfonia di passione, tradizione, innovazione, rispetto e responsabilità che, trascendendo il semplice concetto di produzione, continuerà a plasmare il futuro della rubinetteria e dell'ambiente bagno.

■ The history that embraces the brand Palazzani.eu has its deep roots in far 1905. A concrete witness of values, as effort, passion and dedication, that has passed down through generations, constantly accompanied by an innate propension in investing in research and technology. Today, the fourth generation continues proudly carrying on this long industrial tradition, totally Made in Italy that, thanks to the modern production techniques, can turn raw material in high quality design taps, perfect for any bathroom. An incredible symphony of passion, tradition, innovation, respect and responsibility that, transcending the simple concept of production, will continue molding the future of faucets' industry and bathroom.

■ L'histoire de la marque Palazzani.eu remonte à 1905.
Un témoignage concret de valeurs, comme l'engagement, la passion et le dévouement, qui se sont transmis de génération en génération, constamment accompagnés d'une propension innée à investir dans la recherche et la technologie. Aujourd'hui, la quatrième génération continue avec fierté de poursuivre cette longue tradition industrielle entièrement Made in Italy qui, grâce aux techniques de production les plus modernes, est en mesure de transformer la matière première en robinetterie de haute qualité et design, parfait pour toute salle de bains. Une incroyable symphonie de passion, tradition, innovation, respect et responsabilité qui, dépassant le simple concept de production, continuera à façonner l'avenir de la robinetterie et de la salle de bain.

■ Die Geschichte der Marke Palazzani.eu reicht bis ins Jahr 1905 zurück.
Ein konkretes Zeugnis von Werten wie Engagement, Leidenschaft und Hingabe, die von Generation zu Generation weitergegeben wurden und ständig von einer angeborenen Neigung begleitet werden, in Forschung und Technologie zu investieren. Heute führt die vierte Generation stolz diese lange industrielle Tradition weiter, die vollständig in Italien hergestellt wird und dank modernster Produktionstechniken in der Lage ist, den Rohstoff in hochwertige Armaturen zu verwandeln, Perfekt für jedes Badezimmer. Eine unglaubliche Symphonie aus Leidenschaft, Tradition, Innovation, Respekt und Verantwortung, die über das einfache Produktionskonzept hinausgeht und die Zukunft der Armaturen und des Badezimmers prägen wird.

■ La historia que envuelve a la marca Palazzani.eu hunde sus profundas raíces en el lejano 1905.
Un testimonio concreto de valores, como compromiso, pasión y dedicación, que se han transmitido de generación en generación, acompañados constantemente por una innata propensión a invertir en investigación y tecnología. Hoy, la cuarta generación continúa llevando con orgullo esta larga tradición industrial totalmente Made in Italy que, gracias a las más modernas técnicas de producción, es capaz de transformar la materia prima en grifería de alta calidad y diseño, perfectas para cualquier ambiente de baño. Una increíble sinfonía de pasión, tradición, innovación, respeto y responsabilidad que, trascendiendo el simple concepto de producción, continuará dando forma al futuro de la grifería y del ambiente del baño.

■ Il ciclo di produzione viene eseguito interamente nello stabilimento.
■ L'assemblaggio di ogni nostro articolo viene eseguito mediante isole di montaggio automatiche o semi-automatiche. Il reparto delle lavorazioni meccaniche è equipaggiato con modernissime macchine a controllo numerico.

■ The production cycle is entirely performed in the plant. ■ Each faucet or mixer consists of many different pieces. They are assembled on semi-automatic or automatic assembly islands. The machining department is equipped with modern numerical control tools.

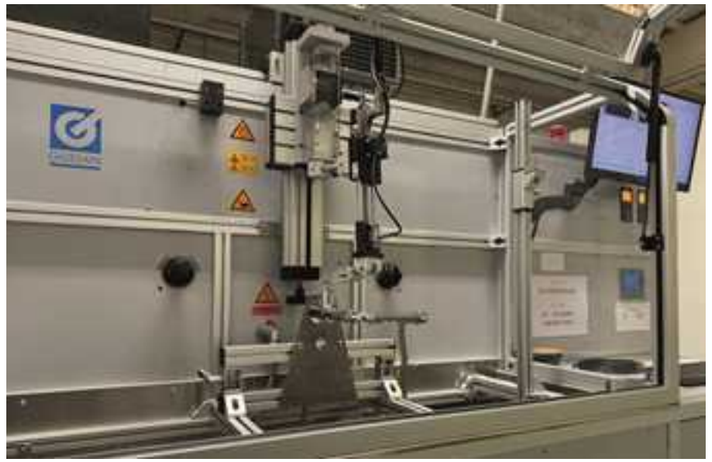
■ Le cycle de production est effectué entièrement dans l'établissement.
■ Chaque robinet ou mélangeur est composé de nombreuses pièces différentes entre elles. L'assemblage est effectué par l'intermédiaire d'îlots de montage semi-automatiques ou automatiques. L'atelier des usinages mécaniques est équipé avec des machines à contrôle numérique très modernes.

■ Der gesamte Produktionszyklus erfolgt im eigenen Werk.
■ Jeder Hahn und jede Mischbatterie besteht aus vielen verschiedenenEinzelteilen. Die Montage wird in halbautomatischen und automatischen Montageinseln ausgeführt. Die Abteilung der mechanischen Bearbeitungen ist mit Maschinen mit numerischer Steuerung auf dem letzten Stand der Technik ausgerüstet.

■ El ciclo de producción se realiza completamente en el establecimiento.
■ Todo grifo o mezclador se compone de muchas piezas diferentes entre sí. El montaje se realiza mediante islas de armado semi-automáticas o automáticas. La sección de elaboraciones mecánicas está equipado con máquinas extremadamente modernas con control numérico.

il valore della sostenibilità

The value of sustainability

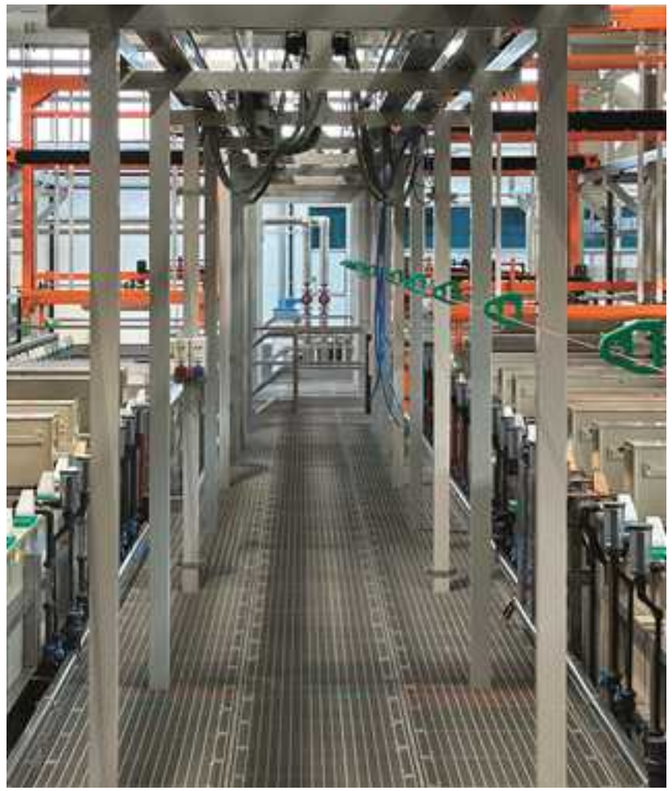


■ Palazzani.eu ha completamente trasformato i propri processi industriali di produzione e finitura, mettendo al centro la salute umana, la salvaguardia dell'ambiente e l'impegno per una produzione sempre più sostenibile. Per questo l'Azienda cura con amore e attenzione qualsiasi dettaglio e ogni singolo passo è intrapreso con l'obiettivo di preservare questi valori.
Sono state sostituite completamente le lavorazioni che potevano rappresentare una minaccia per l'essere umano, come la cromatura esavalente, con processi galvanici all'avanguardia - cromatura trivalente - completamente privi di sostanze nocive. È stato messo in opera un avveniristico impianto di depurazione a basso consumo energetico che recupera completamente gli scarti dei processi di produzione reimmettendoli, una volta depurati e controllati, nel ciclo di lavorazione in totale conformità e nel pieno rispetto delle più stringenti normative in materia.
Oggi i nuovi impianti consentono a Palazzani.eu, a parità di prestazioni, di risparmiare sino al 70% di energia rispetto ai precedenti, rendendosi utili anche per altre fasi di lavorazione come, ad esempio, il recupero del calore necessario ad alimentare i forni di asciugatura.
Questi cambiamenti epocali non solo hanno portato a risparmi significativi nei costi industriali che permetteranno a Palazzani.eu di offrire a prezzi equilibrati e accessibili anche i prodotti di qualità più elevata, ma hanno anche consentito all'Azienda di diventare a tutti gli effetti una industria 4.0 che può vantare attestazioni di qualità e conformità di prodotto e di processo rilasciate dai più severi Enti di Certificazione Internazionali.
Un viaggio verso il futuro che non ha dimenticato di mettere al primo posto la sicurezza e il benessere dei lavoratori dipendenti, riconoscendoli come parte fondamentale del proprio successo di impresa.

■ Palazzani.eu has completely changed its industrial production and finishing's processes, putting the focus on human health, environmental protection and effort for an increasingly sustainable production. Because of this, the Company cares with love and attention any detail and each step is made with the purpose of maintain these values.
Processes that might have represented a threat for human being – as hexavalent chrome - have been replaced with, galvanic processes – trivalent chrome – totally free of harmful substances.
A futuristic depuration plant with low energy consumption has been put into place; it totally recovers the waste of production processes and put them again, once purified and checked, into process cycle in total conformity and in full respect of the strictest laws in the matter. Today, the new plants, with equal performances, allow Palazzani.eu saving up to 70% of energy compared to previous ones, being useful even for more processing phases as, for example, recover of the heat that's needed to feed drying ovens. These epochal changes not only lead to important savings in industrial costs that will allow Palazzani.eu offering at balances and affordable prices even higher quality products, but also let the company becoming a full-fledged 4.0 company that can boast certificates of quality and conformity of products and processes released by the most severe international certification bodies.
A trip to the future that didn't forget putting at first place the safety and welfare of employee, recognizing them as fundamental part of its company success.

■ Palazzani.eu a complètement transformé ses processus industriels de production et de finition, en mettant au centre la santé humaine, la protection de l'environnement et l'engagement pour une production toujours plus durable. C'est pourquoi la Société soigne avec amour et attention chaque détail et chaque étape est entreprise dans le but de préserver ces valeurs.
Les procédés qui pouvaient représenter une menace pour l'être humain, tels que le chromage hexavalent, ont été complètement remplacés par des procédés galvaniques de pointe - chromage trivalent - complètement exempts de substances nocives. Une station d'épuration futuriste à faible consommation d'énergie a été mise en place pour récupérer complètement les déchets des processus de production en les réimplantant, une fois épurés et contrôlés, dans le cycle d'usinage en totale conformité et dans le plein respect des normes les plus strictes en la matière.
Aujourd'hui, les nouvelles installations permettent à Palazzani.eu, pour des performances égales, d'économiser jusqu'à 70% d'énergie par rapport aux précédentes, en se rendant utile aussi pour d'autres phases de travail comme, par exemple, la récupération de la chaleur nécessaire pour alimenter les fours de séchage.
Ces changements historiques ont non seulement conduit à des économies significatives dans les coûts industriels qui permettront à Palazzani.eu d'offrir à des prix équilibrés et accessibles même les produits de qualité supérieure, Mais ils ont également permis à l'entreprise de devenir une industrie 4.0 qui peut se vanter d'attester de la qualité et de la conformité des produits et des processus délivrés par les organismes de certification internationaux les plus stricts.
Un voyage vers l'avenir qui n'a pas oublié de mettre au premier plan la sécurité et le bien-être des salariés, en les reconnaissant comme une partie fondamentale de leur succès d'entreprise.

Impianto di cromatura e depurazione
Chrome plating and purification plant



V Palazzani.eu hat seine industriellen Produktions- und Veredelungsprozesse komplett verändert und dabei die menschliche Gesundheit, den Umweltschutz und das Engagement für eine immer nachhaltigere Produktion in den Mittelpunkt gestellt. Aus diesem Grund kümmert sich das Unternehmen mit Liebe und Aufmerksamkeit um jedes Detail und jeden einzelnen Schritt, um diese Werte zu bewahren.
Bearbeitungen, die eine Bedrohung für den Menschen darstellen könnten, wie die sechswertige Verchromung, wurden vollständig durch modernste galvanische Verfahren - dreiwertige Verchromung - völlig frei von Schadstoffen ersetzt. Es wurde eine zukunftsweisende Kläranlage mit geringem Energieverbrauch in Betrieb genommen, die die Produktionsabfälle vollständig verwertet und nach der Reinigung und Kontrolle wieder einsetzt, im Bearbeitungszyklus in völliger Übereinstimmung und unter vollständiger Einhaltung der strengsten einschlägigen Vorschriften.
Heute ermöglichen die neuen Anlagen Palazzani.eu bei gleicher Leistung eine Energieeinsparung von bis zu 70% im Vergleich zu den vorherigen, was sich auch für andere Verarbeitungsschritte wie beispielsweise die Wärmerückgewinnung für die Trocknungsöfen als nützlich erweist.
Diese epochalen Veränderungen haben nicht nur zu erheblichen Einsparungen bei den Industriekosten geführt, die es Palazzani.eu ermöglichen werden, auch die qualitativ hochwertigsten Produkte zu ausgewogenen und erschwinglichen Preisen anzubieten, Sie haben es dem Unternehmen aber auch ermöglicht, in jeder Hinsicht zu einer Industrie 4.0 zu werden, die Qualitäts-, Produkt- und Prozesskonformitätsbescheinigungen der strengsten internationalen Zertifizierungsstellen vorweisen kann.
Eine Reise in die Zukunft, die nicht vergessen hat, die Sicherheit und das Wohlergehen der Arbeitnehmer an erste Stelle zu setzen und sie als einen wesentlichen Teil ihres Unternehmenserfolgs anzuerkennen.+

■ Palazzani.eu ha transformado completamente sus procesos industriales de producción y acabado, poniendo en el centro la salud humana, la protección del medio ambiente y el compromiso con una producción cada vez más sostenible. Por eso la Empresa cuida con amor y atención cada detalle y cada paso se emprende con el objetivo de preservar estos valores.
Se han sustituido por completo los procesos que podían representar una amenaza para el ser humano, como el cromado hexavalente, por procesos galvánicos de vanguardia - cromado trivalente - completamente libres de sustancias nocivas. Se ha puesto en marcha una vanguardista planta de depuración de bajo consumo que recupera completamente los residuos de los procesos de producción y los devuelve, una vez depurados y controlados, en el ciclo de mecanizado en total conformidad y en pleno cumplimiento de las normativas más estrictas en la materia.
Hoy en día, las nuevas instalaciones permiten a Palazzani.eu, con las mismas prestaciones, ahorrar hasta un 70% de energía respecto a las anteriores, siendo útiles también para otras fases de elaboración como, por ejemplo, la recuperación del calor necesario para alimentar los hornos de secado.
Estos cambios de época no solo han dado lugar a ahorros significativos en los costos industriales que permitirán a Palazzani.eu ofrecer a precios equilibrados y asequibles incluso los productos de mayor calidad, pero también han permitido a la Empresa convertirse en una industria 4.0 que puede presumir de certificaciones de calidad y conformidad de producto y de proceso emitidas por los más severos Organismos de Certificación Internacionales.
Un viaje hacia el futuro que no ha olvidado poner en primer lugar la seguridad y el bienestar de los trabajadores, reconociéndolos como parte fundamental de su éxito como empresa.

Controllati uno ad uno prima dell'imballaggio

Tested one by one before shipment

■ Ogni singolo articolo viene sottoposto a severe prove di tenuta. La macchina di prova è dotata di sensori estremamente efficaci che segnalano ogni minima eventuale perdita, così che il pezzo non conforme non prosegua nel suo percorso di imballaggio.

■ Each piece is subjected to a severe seal test. The machine is equipped with extremely sensitive sensors that detect any leaks before the piece continues on towards packaging.

■ Chacune des pièces est soumise à un essai de tenue étanche sévère. La machine équipée de senseurs extrêmement efficaces signale une perte éventuelle avant que la pièce ne poursuive son parcours vers l'emballage.

■ Jeder Artikel wird strengsten Dichtigkeitsprüfungen unterzogen. Die mit hoch empfindlichen Sensoren ausgestattete Maschine meldet alle eventuellen Undichtigkeiten, bevor das Produkt zur Verpackungslinie gelangt.

■ Cada una de las piezas es sometida a una rigurosa prueba de hermeticidad. La máquina dotada de sensores extremadamente eficaces señala una eventual pérdida antes de que le pieza continúe con su recorrido hacia el embalaje.

Spediamo in oltre 50 paesi nel mondo

We ship in over 50 countries

PVD color technology

■ La PVD Color Technology di Palazzani.eu è un'innovativa finitura, applicata dopo la cromatura, che conferisce ai prodotti, oltre ad una valenza estetica superiore, un'eccezionale durezza superficiale con elevate prestazioni di resistenza ed è inalterabile dalla luce. L'omogeneità estetica è garantita dall'utilizzo di macchinari di proprietà totalmente gestiti da personale altamente specializzato interno all'azienda. Per garantire la massima qualità di questa speciale finitura, Palazzani.eu si è dotata di specifici macchinari per effettuare internamente sia le prove di corrosione (in nebbia salina neutra), che le prove climatiche (da -40°C a + 180°C), che le prove di spessore del materiale depositato.

■ Palazzani.EU PVD Color Technology is an innovative finish, applied after chrome plating, which gives the products, in addition to a superior aesthetic value, an exceptional surface hardness with high resistance performance and is unalterable by light. The aesthetic homogeneity is guaranteed by the use of proprietary machinery totally managed by highly specialized staff within the company. In order to guarantee the highest quality of this special finish, Palazzani.eu is equipped with specific machines to carry out both the corrosion tests (in neutral salt mist) and the climate tests (from -40 C to + 180 C) internally and the thickness tests of the deposited material.

■ La PVD Color Technology de Palazzani.eu est une finition innovante, appliquée après chromage, qui confère aux produits, en plus d'une valeur esthétique supérieure, une dureté de surface exceptionnelle avec des performances de résistance élevées et est inaltérable à la lumière. L'homogénéité esthétique est garantie par l'utilisation de machines appartenant totalement gérées par un personnel hautement spécialisé au sein de l'entreprise. Pour garantir la plus haute qualité de cette finition spéciale, Palazzani.eu s'est dotée de machines spécifiques pour effectuer en interne aussi bien les essais de corrosion (en brouillard salin neutre) que les essais climatiques (de -40 C à + 180 C) et les essais d'épaisseur du matériel déposé.

■ Die PVD Color Technology von Palazzani.eu ist ein innovatives Finish, das nach dem Verchromen aufgetragen wird und den Produkten neben einem überlegenen ästhetischen Wert eine außergewöhnliche Oberflächenhärte mit hoher Widerstandsfähigkeit verleiht und vom Licht nicht verändert werden kann. Die ästhetische Homogenität wird durch den Einsatz von eigenen Maschinen garantiert, die vollständig von hochspezialisiertem Personal innerhalb des Unternehmens verwaltet werden. Um die höchste Qualität dieses speziellen Finishs zu gewährleisten, hat Palazzani.eu spezifische Maschinen für die interne Durchführung von Korrosionsprüfungen (in neutralem Salznebel) und Klimaprüfungen (von -40 C bis + 180 C) installiert und die Tests der Dicke des hinterlegten Materials.

■ La PVD Color Technology de Palazzani.eu es un innovador acabado, aplicado después del cromado, que confiere a los productos, además de un valor estético superior, una excepcional dureza superficial con elevadas prestaciones de resistencia y es inalterable por la luz. La homogéneneneidad estética está garantizada por el uso de máquinas de propiedad totalmente gestionadas por personal altamente especializado dentro de la empresa. Para garantizar la máxima calidad de este acabado especial, Palazzani.eu se ha dotado de máquinas específicas para efectuar internamente tanto las pruebas de corrosión (en niebla salina neutra) como las pruebas climáticas (de -40 C a + 180 C) y las pruebas de espesor del material depositado.

Universell Unterputz system

- **1**: Installieren Sie **unico®**, das Universal-Einbaukörper, während der Verlegung der Rohre aus Metall.
- **2**: Bei der Installation der Armaturen können Sie unter den zahlreichen **Einhebelmischer** oder **Thermostat** Mischer auswählen, ohne Adapter einsetzen oder die ursprüngliche Installation abändern zu müssen.

Sistema para empotrar

- **1**: Instale **Pbox**, el cuerpo universal de encastre, durante la colocación de los tubos metálicos y multiestrato.
- **2**: En el I momento de la instalación de la grifería puede elegir entre las diferentes series de mezcladores **monomando** o **termostàtico**, sin necesidad de adaptadores o de modificaciones de la instalación inicial.

LIMITI DI IMPIEGO RACCOMANDATI DALLA NORMATIVA UNI EN 1111 PER IL BUON FUNZIONAMENTO DEL RUBINETTO TERMOSTATICO

- Pressione: min 1 BAR / max 5 BAR
- Temperatura acqua calda: min 55°C, max 65°C.
- Temperatura acqua fredda: minore uguale 25°C.
- I miscelatori termostatici possono essere utilizzati con accumulatori di acqua calda a pressione o con scaldabagni istantanei, ma devono garantire acqua calda a temperatura costante. (SOLUZIONE NON OTTIMALE)
- In presenza di acque particolarmente calcaree è da prevedere l'installazione di un addolcitore all'ingresso dell'impianto.
- È necessario eseguire (soprattutto nel caso di nuove installazioni) uno spurgo preventivo dell'impianto molto accurato per evitare danni sia alla rubinetteria sia agli apparecchi tecnologici installati
- Un filtro centralizzato protegge l'impianto dalle impurità contenute nell'acqua
- In caso di pressioni di alimentazione superiori a 5 BAR si raccomanda d'installare un riduttore di pressione per il buon funzionamento degli apparecchi.
- La differenza massima di pressione in arrivo (Calda-Fredda) 1.5 BAR
- la temperatura dell'acqua calda in ingresso deve essere almeno di 10 superiore alla massima temperatura desiderata in uscita

LIMITS OF EMPLOY RECOMMENDED BY UNI EN 1111 LAW FOR PROPER FUNCTIONING OF THERMOSTATIC MIXER

- Pressure: min 1 BAR / max 5 BAR
- Hot water temperature: min 55°C, max 65°C.
- Cold water temperature : less/equal to 25°C.
- Thermostatic mixers can be used with pressure hot water accumulators or instant water heater, but they have to grand hot water at a constant temperature (NOT OPTIMAL SOLUTION)
- In presence of particularly calcareous waters, installation of a water softener at the entry of the plant is to be expected.
- It is necessary to make (in particular in case of new plants) a very careful preventive purging of the plant to avoid any damage both to taps and to technological devices installed.
- A centralized filter protects the plant from impurities cotained into the water.
- In case of feeding pressures higher than 5BAR it's recommended to install a pressure reducer for proper functioning of the devices.
- The max. difference of entry pressure (Hot-Cold) is 1.5 BAR.
- The temperature of entry hot water has to be at least 10 times higher than the desired exit temperature.

I miscelatori termostatici

Thermostatic mixers

Il miscelatore termostatico

- Palazzani vi invita in un mondo fatto di comfort, sicurezza e consumo consapevole e corretto di acqua ed energia. ■ Installate normalmente il condizionatore d'acqua **acquaclima®** collegandolo come un normale miscelatore all'acqua calda e fredda. Otterrete costantemente un flusso di acqua miscelata alla temperatura che avete impostato.
- **acquaclima®** ha un bottone di fermo a 38°C in modo da evitare le temperature elevate se non espressamente volute, ed un sistema interno anti-scottatura in caso di rottura dell'alimentazione di acqua fredda.

Thermostatic mixer

- Palazzani invites you to a world made of comfort, safety, aware and correct consumption of water and energy.
- Install the **acquaclima®** water conditioner normally by connecting it as a normal mixer to hot and cold water supply.
You will constantly obtain a flow of water mixed at the temperature you have set.
- **acquaclima®** has a stop button at 38°C so as to avoid high temperatures if not expressly desired and an internal anti-scalding system in the event the cold water supply breaks.

Mitigeur thermostatique

- Palazzani vous invite dans un monde fait
de confort, de sécurité et d'une consommation consciente et correcte d'eau et d'énergie.
- Installez normalement le conditionneur d'eau **acquaclima®** en le branchant comme un mélangeur normal d'eau chaude et froide. Vous obtiendrez toujours un débit d'eau mélangée à la température que vous avez programmée.
- **acquaclima®** est doté d'un bouton d'arrêt à 38°C de façon à éviter les températures élevées à moins de les demander expressément et d'un système interne anti-brûlure en cas de panne dans l'alimentation en eau froide.

[easy clean]

■ Il sistema **easy-clean** vi permette di rimuovere con facilità il calcare da docce e doccette, semplicemente strofinando con il dito le tettarelle di silicone. (meglio durante l'erogazione d'acqua)

■ **easy-clean** system allows you to remove limescale from head showers and hand showers. When pressing with your finger on the silicone spray, the silicone spray channels are easily cleaned. (better with water on)

bordo vasca

brevettato - patented

coiffeur

[drop stop]

■ La rubinetteria soprabordo vasca o per parrucchiere, con doccia estraibile, è dotata dello speciale dispositivo **drop-stop®** che impedisce all'acqua di penetrare attraverso il foro di passaggio del flessibile.

■ The mixers for deck mounting on bath-tub or haidresser, when provided with a pull-out shower, are equipped with the special **drop-stop®** device that prevents water to penetrate through the flexible housing hole.

■ La robinetterie pour montage sur gorge de coiffeur ou baignoire, lors qu'elle est pourvue d'une douchette amovible, elle est dotée du spécial dispositif **drop-stop®** afin d'éviter que des gouttes d'eau pénètrent à travers du passage du flexible.

■ Die Armaturen für Randmontage bei Friseur und Badewanne, wenn sie mit herausziehbarer Brause sind, werden mit einem speziellen **drop-stop®** Gerät geliefert, welches vermeidet, dass Wassertropfen durch den Brausehalter gelangen

■ Los grifos de sobreponer para bañera o peluquero, con ducha extraible, están dotados de un especial dispositivo **drop-stop®** que impide al agua de pasar a travez del orificio del pasaje del flexible.

[no hot]

■ Per evitare scottature che potrebbero generare reazioni pericolose, Palazzani ha previsto i corpi dei miscelatori per doccia provvisti di sistema **no-hot®** che mantiene il rubinetto a temperatura mite, anche durante l'uso prolungato di acqua calda.

■ In order to avoid body scalding that can be dangerous in the bathroom, Palazzani has designed the bodies of shower mixers with the special **no-hot®** system that maintain the tap body at a mild temperature also during the use of hot water.

■ Afin d'éviter toute brûlures qui pourraient engendrer des réactions dangereuses, Palazzani a conçu les mitigeurs de douche avec le système **no-hot®** qui maintient le corps du robinet à température douce même durant un usage prolongé d'eau chaude.

■ Um eventuelle Verbrennungen zu vermeiden, welche zu heisse Armaturenkörper im Badezimmer erzeugen können, hat Palazzani die Körper der Brausebatterien einiger Armaturenserien mit einem speziellen **no-hot®** System produziert, welches die Körper der Armaturen immer, auch während einer längeren Heisswasser – Entnahme, auf milder Temperatur halten.

■ Para evitar quemaduras que podrian causar reacciones peligrosas, Palazzani ha diseñado el cuerpo de los mezcladores para ducha con el especial sistema **no-hot®** que mantiene el grifo a una temperatura fria, aún durante un uso prolongado de agua caliente.

[acqua green]

certificazioni

■ Con il kit **acquagreen®, che trovate nella sezione ricambi,** potete trasformare il vostro rubinetto Palazzani in un rubinetto a risparmio
d'acqua, secondo le più stringenti normative ecologiche richieste a livello internazionale.

■ With the **acquagreen®** kit, that you can find in the spare parts section, you can turn your Palazzani faucet into a saving-water faucet, according to the most stringent ecological national and international requirements.

■ Avec le kit **acquagreen®**, qui vous trouvez dans les pièces de rechange, vous pouvez transformer votre robinet Palazzani dans un robinet économies
d'eau, selon les exigences écologiques les plus strictes au niveau national et international.

■ Mit dem Kit **acquagreen®**, in den Teilen gefunden, können Sie Ihren Wasserhahn in einen Wasserhahn Palazzani Einsparungen wiederum
Wasser, nach den strengsten ökologischen Anforderungen auf nationaler und internationaler.

■ Con el kit **acquagreen®**, que se encuentra en la sección de piezas, usted puede transformar su grifo Palazzani en un grifo con ahorro de agua, de acuerdo a los requisitos ecológicos más estrictos a nivel nacional e internacional.

■ La rubinetteria PALAZZANI viene progettata per resistere nel tempo e per questo motivo ogni singolo prodotto deve superare severe prove e impegnativi collaudi interni nei nostri laboratori.
Inoltre i rubinetti Palazzani sono conformi a tutte le normative dei più autorevoli laboratori internazionali. Alcuni di essi hanno conferito ai prodotti Palazzani alcuni tra i più importanti marchi di qualità. Questo garantisce una sicura qualità, affidabilità e durata del prodotto.

■ The faucet is designed and industrialized in PALAZZANI technical office to endure over time and that is why every product must pass stringent
internal testing and challenging tests

NSF NF kiwa CSA C US

Dichiarazione di Conformità

■ Tutti i nostri rubinetti con valvola sanitaria e miscelatori con dischi in ceramica sono conformi alla norma UNI EN 817
■ Tutti i nostri rubinetti termostatici sono conformi alla norma UNI EN 1111
■ Tutti i nostri rubinetti elettronici sono conformi alla norma UNI EN 15091

Ottone

■ Tutti i nostri rubinetti vengono realizzati in ottone conforme alle normative
Ottone CW 614N – UNI EN 12164
Ottone CW 617N – UNI EN 12165

Cromatura

■ La nostra cromatura è conforme alla norma UNI EN 248.
Superando il test di 200 ore in ambiente salino
La cromatura PALAZZANI prevede un rivestimento di Nickel e di Cromo con spessori che raggiungono i 20 micron.

Declaration of Conformity

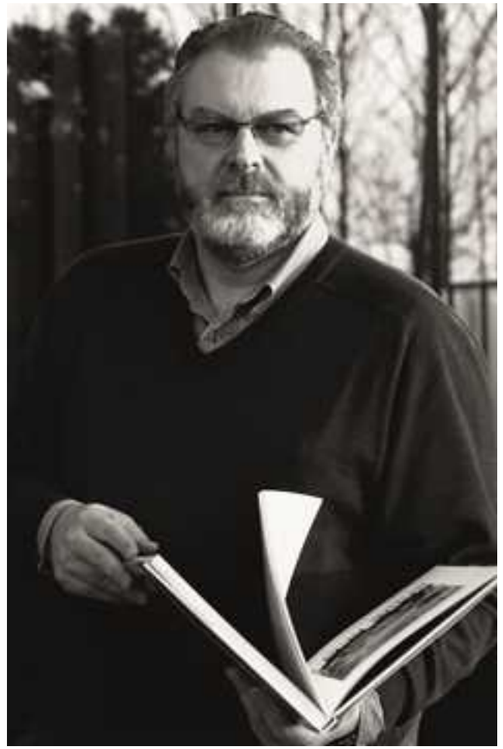
■ All Palazzani's taps with valve and mixers with the cartridge in ceramic disc are according to UNI EN 817
■ All Palazzani's taps with thermostatic valves
are according to UNI EN 1111
■ All Palazzani's electronic taps are according
to UNI EN 15091

Brass Declaration

■ All Palzzani's taps are made with the brass conform to :
Brass CW 614N-UNI EN 12164 (turnig brass)
Brass CW 617N-UNI EN 12165 (molding brass)
Brass CuZn 37 Pb – UNI EN 753s (casting brass)

Chrome-plating

■ The Palazzani's Chrome plating is according
to UNI EN 248.
The chrome-plating is designed to withstand a test of more than 200 hours in saline ambient.
The taps surfaces are coated with layers of nickel and chrome up to 20 microns thickness.



Antonio Bullo

■ Antonio Bullo, oltre che scultore di successo e libero docente di Disegno Industriale presso l'I.S.I.A. di Faenza, è un designer italiano la cui attività è in buona parte dedicata agli oggetti per arredare l'ambiente bagno.
Ha ottenuto importanti successi progettando ceramiche e rubinetterie, è detentore di premi importanti, ma soprattutto ha da sempre riscosso il consenso dei consumatori che apprezzano l'innovazione, la praticità d'uso e la purezza di linee
dai tratti inconfondibili.
In questo catalogo sono presentati i rubinetti disegnati da Antonio Bullo per Palazzani.
■ Antonio Bullo is not only a successful sculptor and teacher of Industrial Design of the I.S.I.A. of Faenza, Italy, but is also an Italian designer, whose large part of activity is dedicated to design the bathroom ambience. He has achieved important success designing ceramics, taps and faucets and has obtained important awards, but above all he has always earned consumer appreciation for the innovation, useful practicality and purity of his work's unmistakable lines.
In this catalogue you'll find the products designed by Antonio Bullo for Palazzani.
■ Antonio Bullo, sculpteur sculpteur de succès et professeur de Dessin Industriel à l'I.S.I.A. de Faenza, est aussi un designer italien dont l'activité est en majeure partie consacrée aux objets d'ameublement de salle de bain. Il a obtenu d'importants succès ayant projeté des céramiques et des robinetteries, il a reçu des prix importants, mais il a surtout, depuis toujours, suscité l'approbation des consommateurs qui apprécient l'innovation, la facilité d'utilisation, et la pureté des lignes avec des traits uniques.
Dans ce catalogue sont présentés les produits dessinés par Antonio Bullo pour Palazzani.
■ Antonio Bullo ist nicht nur ein erfolgreicher Bildhauer und freier Dozent an der Hochschule für Industriedesign (I.S.I.A.) in Faenza, sondern auch ein italienischer Designer, der einen Großteil seiner beruflichen Tätigkeit den Einrichtungsobjekten für das Bad-Ambiente widmet.
Er hat beachtliche Erfolge im Design von Keramiken und Armaturen erzielt, ist Träger wichtiger Preise, vor allem aber findet er seit jeher Anklang bei den Verbrauchern, die die Innovation, die einfache Handhabung und die Reinheit seiner unverwechselbaren Linien schätzen.
In diesem Katalog werden die Produkte vorgestellt, die Antonio Bullo für Palazzani designt hat.
■ Antonio Bullo además de ser un escultor de fama y docente de Dibujo Industrial del I.S.I.A. (Instituto Superior de Industria Artística) de Faenza (Italia), es un diseñador italiano cuya actividad se centra en buena parte a objetos para la decoración del baño.
Ha obtenido una importante fama diseñando cerámicas y griferías, y se le han otorgado premios importantes, pero sobretodo desde siempre ha recibido el consenso de aquellos consumidores que aprecian la innovación, la practicidad de uso y la pureza de líneas con rasgos inconfundibles.
En este catálogo hay los productos diseñados por Antonio Bullo para Palazzani.

Andrea Zani

■ Andrea Zani si laurea in design industriale presso Machina Lonati Fashion and Design Institute nel 2005.
La sua vocazione di industrial designer lo porta alla continua ricerca di realtà dove artigianalità dei prodotti e ricerca del nuovo si fondono. Ciò gli permette di realizzare oggetti dal design innovativo e d'impatto che si incastrano però perfettamente con le quotidiane esigenze del mercato.
Il suo catalogo si compone di oggetti essenziali, dal rigore formale ma senza tempo.
La sua collaborazione con Palazzani si sviluppa nel restyling di alcune serie di rubinetti e nella creazione di nuove linee, ridefinendo così il concetto di eleganza e funzionalità nel mondo dell'arredamento per bagni.
■ Andrea Zani graduates in industrial design at Machina Lonati Fashion and Design Institute in 2005.
His vocation as an industrial designer takes him to a constant quest for realities where craftsmanship of products and search for new lines blend. This allows him to create objects with innovative design that perfectly fit with the daily demands of the market.
His catalog consists of essentials objects with a rigorous shape but timeless.
His collaboration with Palazzani develops in the restyling of some series of taps and in the creation of new lines, thus redefining the concept of elegance and functionality in the world of bathroom furniture.
■ Andrea Zani, concepteur industriel de formation fut diplômé en design industriel au Machina Lonati Mode et Design Institute en 2005.
En tant que designer industriel, il a un esprit innovateur, vif et créatif, il propose des produits fonctionnels aux lignes épurées et intemporelles où le style et le design s'incorporent parfaitement avec les exigences du marché d'aujourd'hui.
Sa collaboration avec Palazzani se développe dans le restyling de certaines séries de robinets et dans la création de nouvelles lignes, redéfinissant ainsi le concept d'élégance et de fonctionnalité dans le monde de l'ameublement pour salles de bains..
■ Andrea Zani ist Absolventen in Industriedesign vom Machina Lonati Fashion und Design-Institut im Jahr 2005.
Seine Berufung als Industriedesigner führt ihn zu einer ständigen Suche nach Wirklichkeiten, wo Handwerkskunst der Produkte und die Suche nach neuen Linien verschmelzen. Dies erlaubt ihm, Objekte mit innovativen Design, das perfekt mit den täglichen Anforderungen des Marktes anpassen zu erstellen.
Sein Katalog besteht aus Wesentliche Objekte mit einer strengen Form, aber zeitlos. Seine Zusammenarbeit mit Palazzani entwickelt sich bei der Neugestaltung einiger Armaturenserien und der Schaffung neuer Linien, wodurch das Konzept von Eleganz und Funktionalität in der Welt der Badezimmermöbel neu definiert wird.
■ Andrea Zani se graduó en diseño industrial en Machina Lonati Fashion and Design Institute en 2005.
Su vocación como diseñador industrial lo lleva siempre en busca de realidades donde la artesanía de los productos y la búsqueda de lo nuevo se funden. Esto le permite crear objetos con diseño innovador y de impacto que se ajustan perfectamente con las demandas cotidianas del mercado.
Su catálogo se compone de objetos esenciales, del rigor formal pero sin tiempo.
Seine Zusammenarbeit mit Palazzani entwickelt sich bei der Neugestaltung einiger Armaturenserien und der Schaffung neuer Linien, wodurch das Konzept von Eleganz und Funktionalität in der Welt der Badezimmermöbel neu definiert wird.

italia italia

elettronici

normative

Conformità

I nostri rubinetti meccanici a chiusura automatica temporizzata sono conformi alla norma UNI EN 816 “Rubinetteria sanitaria - Rubinetteria a chiusura automatica PN10”; i nostri rubinetti elettronici sono conformi alla norma EN15091 “Sanitary tapware - Electronic opening and closing sanitary tapware”.

Compatibilità Elettromagnetica CE

Si tratta di un’auto-certificazione nella quale il produttore deve garantire egli stesso la conformità dei suoi prodotti, e deve essere in grado di presentare su domanda delle autorità la prova di quello che certifica.

Tutti i prodotti elettrici o elettronici marchiati CE, attestano che sono conformi alle seguenti norme:

Compatibilità elettromagnetica: Direttiva 2004/108/CE

Direttiva Bassa Tensione: Direttiva 2006/95/CE

Inoltre:

- EN 50 082-1 Compatibilità elettromagnetica - Norma generica d’immunità - Ambiente domestico, commerciale e industriale leggero.
- EN 50 082-2 Compatibilità elettromagnetica - Norma generica d’immunità - Ambiente industriale, del 1998 e le emissioni di classe B EN 50, del 2001.
- EN 60947-5-1 Accessori elettrici a bassa tensione. Apparecchi ed elementi di commutazione per il controllo dei circuiti. Apparecchi elettromeccanici per circuiti di comando, giugno 2000 e IT 60947-5-1/A12, giugno 2000
- EN 60950-1 Sicurezza degli apparecchi di trasformazione, ivi comprese attrezzature elettriche per ufficio, aprile 2002. La norma descrive in dettaglio le prescrizioni di sicurezza previste per ridurre i rischi d’incendio, di scossa elettrica e lesioni per l’operatore o per i non addetti che possono venire a contatto con le apparecchiature. La norma ha lo scopo di ridurre tali rischi.

compliance

Compliance

Our time controlled, automatically shutting, mechanical tapwares comply with the UNI EN 816 law, “Sanitary tapware - Automatically shutting tapware PN10”, while our electronic tapwares comply with the EN15091 law, “Sanitary tapware - Electronic opening and closing sanitary tapware”.

Electromagnetic Compatibility CE

This is a self-certification in the measure of which the producer itself must guarantee the compliance of its products, and must be capable of presenting on demand of the authorities the proof of that which is certified.

All electric or electronic products marked CE, attest that they comply with the following legislation:

Electronic compatibility: CE Directive 2004/108/CE

Low Tension CE Directive 2006/95/CE

Furthermore:

- EN 50 082-1 Electromagnetic compatibility - Generic law of immunity - Domestic, commercial and light industry environment.
- EN 50 082-2 Electromagnetic compatibility - Generic law of immunity - Industrial environment, since 1998 and class B emissions EN 50, of2001.
- EN 60947-5-1 Low power electric accessories. Appliances and electronic switching elements for circuit control. Electronic appliances for control circuits, June 2000 and IT 60947-5-1/A12, June 2000
- EN 60950-1 Safety of transformation appliances, including electric office equipment, April 2002. The law describes in detail the safety prescriptions to reduce risk of fire, electric shock and body harm to operators or unauthorised personnel who can come into contact with the appliance. The of the law is to reduce such risks.
